Portfolio Website + Shop

Page-by-page structure for a graphic designer's website that sells PSD templates and design files.

1. Sitemap

Menu item	Purpose	Priority
Home	First impression, best work, quick links	Must have
Work	Portfolio and case studies	Must have
Shop	Sell PSD files, templates, mockups, brand kits	Must have
About	Your story, skills, photo (key for name search)	Must have
Services	Custom design jobs and pricing	Must have
Contact	Form, WhatsApp, social links	Must have
Blog	Tutorials, process posts, SEO traffic	Later
Cart / Checkout / My Account	Buying and downloading files	Must have (with Shop)
Legal pages	Privacy policy, Terms, License, Refunds	Must have

Menu bar layout

Logo / Your Name | Work | Shop | Services | About | Contact | **[Cart]**
Footer: quick links, social icons, email, WhatsApp, legal links, newsletter signup.

2. Platform options (pick one)

Option	Best for	Watch out for
Shopify	Easiest way to sell digital files; shop and portfolio in one place	Monthly fee; add Paystack for Ghana payments
WordPress + WooCommerce	Cheapest long-term, strong SEO, full control	More setup and maintenance
Framer or Webflow + Selar/Gumroad	Most beautiful portfolio, simplest selling	Shop lives on a separate link

3. Home page

Goal: in 5 seconds a visitor knows who you are, sees your best work, and knows what to click next.

Section	Content
1. Hero	Your name, one-line title (e.g. Graphic Designer and Brand Identity Specialist), short tagline, two buttons: **View My Work** and **Shop Files**
2. Featured work	4 to 6 of your best projects as a clean grid. Each links to its case study
3. Services snapshot	3 or 4 icons: Branding, Flyers and Social Media, Logo Design, Custom Work
4. Shop preview	4 best-selling or newest products with price and a Buy button
5. About teaser	Photo, 2 to 3 sentences about you, link to About page
6. Testimonials / clients	Short quotes or client logos (add once you have them)
7. Call to action	"Have a project? Let's work together" with Contact button
8. Footer	Links, socials, newsletter

4. Work / Portfolio page

- Filter tabs at the top: **All, Branding, Logos, Flyers, Social Media, Posters**
- Grid of project thumbnails with title and category
- Each project opens a **case study page**

Case study page layout

- Project title, client, year, your role
- The brief (what the client needed)
- Process: sketches, drafts, colour and font choices
- Final designs: large images and mockups
- Result or client feedback
- "Next project" link and a Contact button

5. Shop (e-commerce) section

What you sell: PSD templates, mockups, brand kits, flyer and social media templates, fonts, and bundles.

Shop page

- Category filters: Flyers, Social Media, Mockups, Brand Kits, Bundles, Free
- Product cards: preview image, name, price, Add to Cart
- Sort by newest, price, popularity

Single product page

Element	What to include
Images	Large preview, mockup, and a close-up of the layers
Details	File type (PSD, AI), size, fonts used, what is included
License	Personal use vs commercial use, clearly stated
Price and buy	Price in GHS (and USD if selling abroad), Buy Now button
Trust	Reviews, "instant download" note, refund policy link
Related	"You may also like" products and bundle offer

Checkout and delivery

- Payments: **Mobile Money and cards** via Paystack or Flutterwave
- Instant download link on the thank-you page and by email
- Customer account page to re-download purchases
- Use a digital downloads setting so files are protected and links expire
- Offer 1 or 2 **free products** in exchange for an email address to grow your list

Starter product plan

- Launch with 5 to 10 strong products
- Create 2 bundles at a discount
- Add new products every 2 to 4 weeks

6. About page

- Professional photo of you and a headline with your **full name**
- Your story in 3 short paragraphs: who you are, what you do, what drives you
- Skills and tools (Photoshop, Illustrator, etc.)
- Education and experience, with a downloadable CV
- Link to your social profiles
- Call to action: Work With Me

7. Services page

Service	Details to show
Logo and brand identity	What is included, timeline, starting price
Flyers, posters, social media	Packages (single design, monthly bundle)
Custom work	"Request a quote" button

Add a short "How I work" strip: Brief, Concept, Revisions, Delivery.

8. Contact page

- Simple form: name, email, service needed, budget, message
- WhatsApp button, email address, and phone number
- Social media icons
- Location (city and country) and working hours
- Expected response time, e.g. "I reply within 24 hours"

9. Blog (add later)

- Posts like "How I designed [project]" or "5 tips for flyer design"
- Each post ends with links to your shop and services

10. Getting found when people search your name

Action	How
Domain	Use your full name, e.g. yourname.com
Page titles	Home: "Your Name | Graphic Designer in Ghana". Put your name in headings on Home and About
Google Search Console	Verify the site and submit your sitemap
Consistent profiles	Same name and photo on LinkedIn, Behance, Instagram, Facebook. Link every profile to the site
Google Business Profile	Create one if you offer services
Image alt text	Describe each image with your name and project type
Speed and mobile	Compress images, test on a phone (most visitors will use mobile)
Backlinks	Get listed on Behance, Dribbble, school pages, and company sites you work with

11. Design guidelines

- One accent colour plus black, white, and grey; two fonts at most
- Lots of white space and large images that show your work
- Same style on every page so it feels like a brand
- Fast loading: compress images (WebP or optimised JPG)

12. Pre-launch checklist

Step	Task
1	Buy domain and hosting (or choose platform plan)
2	Install theme and set colours, fonts, logo
3	Build pages: Home, Work, About, Services, Contact
4	Add 5 to 10 products with previews and descriptions
5	Set up Paystack/Flutterwave and digital downloads
6	Add legal pages: Privacy, Terms, License, Refunds
7	Test a real purchase and download on phone and laptop
8	Set up Google Search Console and Analytics
9	Launch and share on all social media
10	Collect testimonials and add new products regularly
